INTRODUCING S.A.L.T.—SEA AND LAND TASTE

The new S.A.L.T. program will be tailored according to where Silversea's ships are sailing and will incorporate both ship-based and shoreside enrichments, including market trips, winery visits, and dining experiences in regional restaurants and bars; food and wine tastings; special dinners with guest hosts; insightful food lectures; cooking classes and demonstrations from local guest chefs and food experts; and numerous other exciting enhancements.

A dedicated S.A.L.T. Lab will provide the perfect setting for you to explore culinary cultures from around the world, while a new S.A.L.T. restaurant will serve regional cuisine that will adapt according to where you are sailing.

A true expression of Silversea's aim to take their guests closer to the authentic beauty of the world in luxury, S.A.L.T. will build on its commitment to unlocking unique and compelling experiences by connecting you with fascinating destinations and cultures.
